

# Vermont's Clean Water Fund

The **Vermont Clean Water Act** (Act 64), signed into law in June 2015, established Vermont's first **Clean Water Fund**. The purpose of the Clean Water Fund is to provide additional state funds to help municipalities, farmers, and others implement projects that will **reduce pollution** washing into Vermont's waters.

Beyond reducing water pollution, clean water projects also:

- Protect public health and safety
- Support Clean Water Act compliance
- Increase flood resilience
- Enhance recreation
- Improve fish and wildlife habitat
- Save money over the long-term
- Leverage federal funds

The Clean Water Fund is administered by the **Clean Water Board**, with representation from **five state agency secretaries**:

- Agency of Administration
- Agency of Agriculture, Food and Markets
- Agency of Commerce and Community Development
- Agency of Natural Resources
- Agency of Transportation

In addition, **four members of the public**, with related technical expertise, are appointed by the governor.

$$\text{\$4 MILLION} + \text{\$15 MILLION} = \text{\$19 MILLION}$$

Estimated annual amount generated by the **property transfer tax surcharge** for the Clean Water Fund.

Estimated **fiscal year 2020 capital funds** for project implementation based on a recent clean water funding report (Act 73 of 2017).

Estimated **fiscal year 2020 clean water budget** administered by the Clean Water Board.
